

Radial Drilling Services Breakthrough Technology Is Good For Fracking.

Open up the formation... Frac the formation

The World Leader in Radial Drilling for Frac Enhancement

Radial Drilling Services delivers equipment, service and Laterals to satisfied customers throughout the world. Check out some of our major clients.

Reduce your fracking footprint!

Leading Innovator in Fracture Enhancement

- Creates directionally controlled frac delivery conduits
- Reduced fracture pressure requirements
- Reduced fluid & proppant requirement
- Small footprint & fully self contained
- **Environmentally-friendly** technology

Radial Drilling Services Develops, Manufactures & Owns, the Technology and Service It Delivers.

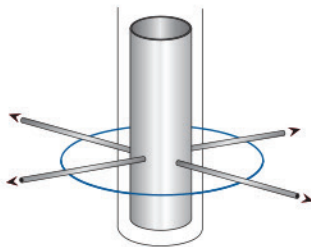

Radial Drilling Services, economically enhancing Oil/Gas/CBM/Shale production with radially jetted laterals using in-house patented environmentally friendly equipment and technology.
